#### Notes:

- The tariffs provided for the relevant service categories are exclusive of VAT and refer to the cheapest approved tariffs, applicable at the end of the calendar year, being commercialised across licensed operators for that year.
- The tariffs provided refer to selected service categories, where operational, in order to allow for indicative and consistent comparisons.
- The tariffs provided for the fixed internet access services refer to the cheapest approved tariffs across licensed operators, independent of wired or wireless connectivity, with due consideration to Note 1 above. Where volume caps are applicable, these are specified under the respective monthly tariffs, beyond which the user can continue to browse on an 'unlimited' basis but typically at a lower speed as per the corresponding operator's policy.
- The tariffs provided for the mobile internet service refer to the cheapest approved tariffs for plans with unlimited data allowances across licensed operators, with due consideration to Note 1 above. Where volume caps are applicable, these are specified under the respective tariffs, beyond which the user can continue to browse on an 'unlimited' basis but typically at a lower speed as per the corresponding operator's policy.
